Geek Choice Lead Tech Helps 1000 Clients

Biz Buzz

Submitted by James Bruce on 2009-02-19.

It's official. Rick Poupart, Geek Choice's year-round, round the clock leader in Connecticut, has now provided computer repair service to his 1000th Geek Choice client earlier this month.

Rick joined Geek Choice in 2006 and since then has made himself available to clients on a 24/7/365 basis. He travels to all ends of Connecticut and has done service calls in the middle of the night and on holidays.

One of Rick's specialties is building computers. He is also a noted expert in virus prevention and removal, network maintenance and data recovery. Clients also express their appreciation for his down to Earth personality and credit him with showing them how to get the most out of their computers. Rick enjoys an exceedingly long list of satisfied clients, many of whom have specifically recommended him to their family and friends.

According to Andrew Lewis, Geek Choice's Director of Public Relations, "Rick Poupart is our cornerstone in Connecticut. The presence we have there is largely due to his devotion to our company and our clients. Many of those 1000 customers specifically request Rick for all their computer needs."

One of his clients, Christopher Berman of Stamford, wrote to Geek Choice that "Rick was great - answered all my questions and more - I never felt rushed or like I was stupid - most importantly he always had a smile!"

Rick is so trusted at Geek Choice that the company routinely sends him to employees' family members. You might see him some day, driving in a GeekMobile.
